

BENNER BATHROOM

Partition Styles

TYPE H/B: HEADRAIL-BRACED

The open style of this installation offers a unique blend of aesthetic and practical appeal. The absence of floor hardware provides a clean, contemporary design that will complement any washroom. The unobstructed access to floor also allows for simplified maintenance, making this style especially well-suited to washrooms having wall-hung fixtures. For proper installation of this partition style, structural steel ceiling supports are required.

TYPE F/S: FLOOR-SUPPORTED

This highly versatile style of installation offers modern appeal that will suit any architectural decor concept. The uniform, flush-top design easily adapts to any washroom and the lack of overhead hardware provides a more spacious feel. Secure installation of this style partition requires a solid concrete floor allowing for a minimum 2" penetration anchoring system.

Partition Styles

TYPE C/H: CEILING-HUNG

The open style of this installation offers a unique blend of aesthetic and practical appeal. The absence of floor hardware provides a clean, contemporary design that will complement any washroom. The unobstructed access to floor also allows for simplified maintenance, making this style especially well-suited to washrooms having wall-hung fixtures. For proper installation of this partition style, structural steel ceiling supports are required.

TYPE F/C: FLOOR-TO-CEILING

For busy washrooms that see an increased level of use and abuse, the floor-to-ceiling style of installation provides the highest degree of protection and resistance to vandalism available. The strongest and most durable style of installation, this incredibly secure design will help keep any high-traffic washroom beautiful for years to come. Proper installation of this style partition requires both structural ceiling supports and concrete floors.

URINAL & PRIVACY SCREENS

WALL-HUNG URINAL SCREEN (WHUS)

The most commonly specified screen is available in the popular 12" x 42", 18" x 42" and 24" x 42" sizes. In facilities where additional support is a concern, an optional continuous wall bracket is available. This screen can also be supplied in a 48" height when required by code.

POST-SUPPORTED

A standard height panel is braced to floor with a 1-3/4" square aluminum post. Top of post and panel are aligned at same mounting height for a uniform, flush appearance. Additional support can be achieved by modifying the aluminum post to a floor-and-ceiling-braced design.

PILASTER-SUPPORTED

This screen utilizes both panel and pilaster of same height, construction and finish as our toilet partitions. With over 20 stock size panels available, depths ranging from 18" to 78" can easily be achieved. The mounting options for this type of screen are offered in Type H/B, Type F/S (as shown), Type C/H, or Type F/C design styles.

SHOWER & DRESSING

In shower rooms that are constructed for multiple person use, Benner Bathroom offers shower and dressing compartments in a wide range of standard or customized configurations to satisfy any requested design concept.

With the exception of Plastic Laminate, we can provide compartments in the same matching components and material finishes as our toilet partitions to ensure uniformity on your project's appearance.

We provide dressing compartments to include either doors or curtains and benches can always be incorporated into the design if needed.

Our flush, Double-Wall Shower is completely self-contained and ideal for single or multiple installations. Each unit features durable double-wall construction of electro-galvanized steel or stainless steel, with rounded inside corners and insulated with a water-resistant, sound-deadening core.

Receptor is heavy-duty terrazzo. Unit comes furnished with curtain rod, curtain, and soap dish.

Shower head and mixing valves are not supplied. The Double-Wall Shower is available in standard or ADA sizes and can also be furnished with or without an attached dressing room. This shower is available in either stainless steel finish or a wide selection of powder coated colors.
